Want to know what courses were accepted?
In general, all courses from regionally accredited institutions transfer to CSU. Login to CougarNet and go to your academic transcript under the Enrollment Services tab.

If *** appears in either in the name or number of an accepted transfer course, it means that there is no current CSU equivalent. However, the course may still apply to your degree. Please refer to your DER and consult with your academic advisor.

All grades (failures, withdrawals, etc.) transfer and will affect your academic GPA and financial aid eligibility.

Want to know how the courses are being applied to your degree?
Login to CougarNet and go to Degree Evaluation (DER) under the Enrollment Services tab. View the Detail Requirements portion of your DER to access specific degree requirements. Areas in red indicate that requirements are not satisfied. View the Additional Information portion of your DER for non-course requirements and courses that are not currently applying to your degree.

If a course has not applied to your degree and you feel that it should, please see your academic advisor. Be prepared to present a course description from the catalog year in which you took the course, as well as a syllabus. Your advisor will assist you in completing a Transfer Credit Departmental Evaluation Form and once completed, the form will be submitted for appropriate approval and processing.

It is highly recommended that you see your academic advisor during your first term of enrollment to perform any adjustments to your DER.

CougarNet Email:
CougarNet is the university’s official method of communication with its students. Official notices and announcements will be sent via email.

General University Requirements:
English 1101 and English 1102 require a grade of C or better in order to receive credit.

Legislative requirements: U.S. History, Georgia History, U.S. Constitution, and Georgia Constitution. Transfer credit for history and government courses may not satisfy the legislative requirements. Students who transfer credit that does not satisfy these requirements may take a proficiency examination or one of the required courses. Students with questions regarding the proficiency examinations should consult with the Department of History.

For all degree programs, demonstration of competency in Communication Technology and Information Literacy is required. This can be satisfied by taking a course at CSU or an exam at the Testing Center. Students must satisfy the requirement within two semesters of enrollment.

All students who have not satisfied an Area A math course (with a grade of C or better) must take the math placement test prior to registration. The exam is free and is administered through the Testing Center.

Orientation, Advising & Registration:
Orientation is required of all students. Please visit the Orientation website for information: http://orientation.colstate.edu.

Every semester, before registration, you must see your academic advisor. Your advisor will help determine the classes for which you need to register, and he or she will remove your advisor hold. You can search for classes and then register on CougarNet. Important dates are located on CSU’s academic calendar: http://academics.colstate.edu/calendars.
